ABSTRACT. *Neomroczkowskiella* nom. nov. is proposed for *Mroczkowskiella* KANIA, 1997 (nec *Mroczkowskiella* MAZUR, 1984).

Key words: entomology, *Coleoptera*, *Curculionidae*, *Brachyderinae*, Afrotropical Region, new name, *Neomroczkowskiella*.

Neomroczkowskiella nom. nov.

Mroczkowskiella KANIA, 1997: 297. Type species: *Rhinosomphus albolineatus* HUSTACHE, 1919 (nec *Mroczkowskiella* MAZUR, 1984: 324).

In the volume of Annales Zoologici dedicated to the 70th birthday of Professor Maciej MROCZKOWSKI I published a paper in which I proposed a new genus for *Rhinosomphus albolineatus* HUSTACHE, 1919. The proposed name *Mroczkowskiella* KANIA 1997: 297 has turned out to be a junior homonym of *Mroczkowskiella* MAZUR 1984: 324. Because of this I propose for this genus a new name, *Neomroczkowskiella* nom. nov.
